Step-by-step instructions:

1. With your wire cutters cut two pieces of capture wire 7" long.
2. Fold one of the lengths in half and attach an end cap by sliding both ends of the capture into the end cap and squeezing the end cap with your nylon coated pliers.
3. Repeat step 2 with the other length of capture.
4. Using the jumprings, attach one side of the clasp to each end cap on the capture.
5. Make a larkshead knot on the ring with the folded end each length of capture making sure that both knots are facing the same direction.
