

## SilverSilk and Donuts Necklace

Finished length approx. 19 inches

### Materials needed:

Available at [SonoranBeads.com](http://SonoranBeads.com):

- 7 - Boro donuts #21232s
- 18" - SilverSilk Gold 3 needle round knitted wire #2455
- 1 pr - 2 mm brass hook and eye crimp ends #1361
- 14- 3x3 crimp beads #2533

### From your stash:

- Vermeil crimp covers

### Tools needed:

- Wire cutters
- Crimp tool
- Chain nose pliers
- Felt tip marker

## Sonoran Beads

### Step-by-step instructions:

1. Cut a piece of SilverSilk 18" long (or whatever length you prefer). Fold it in half and find the center and make a small mark with your felt tip marker.
2. Slide a donut onto the wire until it covers the mark you made in step 1. Slide a crimp bead onto the wire on one side of the donut until it rests next to the donut and crimp it. Cover it with a crimp cover. Slide a crimp bead onto the wire on the other side of the donut until it rests next to the donut and crimp it. Cover it with a crimp cover. This is your center bead cluster. You will now work out from this point on each side of the center cluster.
3. Make a mark on the wire one inch from the last crimp cover added to the center cluster. Slide a crimp bead over the mark, crimp and cover it. Add a donut, crimp and cover to complete the cluster.
4. Repeat step 3 twice to add the remaining clusters for that side.
5. Slide the end of the SilverSilk into one of the crimp ends and crimp the center section with your chain nose pliers.
6. Repeat steps 3 through 5 on the other side of the center cluster to complete the other side of the necklace.
