Sonoran Beads

Step-by-step instructions:

1. Cut three pieces of SilverSilk™ Leather Capture. To determine the length needed, subtract an inch from the desired finished length for the ball and socket clasp.
2. Dab a drop of glue on one end of each piece of leather and insert them, one by one, into one of the triple end caps. Close the end cap with nylon jaw or coated pliers.
3. Thread a slider bead over all three strands of leather.
4. Dab a drop of glue on the end of each strand of leather and insert them, one by one, into the other triple end cap. Close the end cap with nylon jaw or coated pliers.
5. Attach the clasp to the end caps using the jump rings.

Wear and Enjoy!
