- 3 - Pandora Blueberries #J103P
- 1 - Set Sterling silver Hook & Eye Crimp

Tools Needed:

- Needle Nose Pliers
- Scissors - for cutting Silk

Sonoran Beads

Step-by-step instructions:

1. String the beads on the silk cord starting with two mini-rings and alternating with the other large holed Pandora™ style beads, ending with two mini-rings.
2. Take one end of the silk cord and pull about ½" of the inner piping out of the silk covering and snip it off. Fold the ends of the silk over and insert into one end of the Hook & Eye Crimp.
3. With your needle nosed pliers crimp the center bar at the base of the crimp. Turn it over and press the center bar again. This will insure the end is thoroughly crimped and the silk is captured. Cut the other end to the desired length - keeping in mind the closure will add about an inch to the length. Remove the inner piping from this end and add the crimp.
