

## Hollow Coil Necklace

Finished Length: 19"

Supply List –available at [SonoranBeads.com](http://SonoranBeads.com)

- 1 – 3' pkg. Hollow Knit – Rose Gold - #3248
- 1 – 3' pkg. Pearlesque Capture – Purple - #2960
- 1 – Acrylic Oval Magnetic clasp – Rose – #3725
- 1 – Pair short terminators – Silver Plated - #3657

**From your stash:**

- 37" - 22g Craft wire – silver color
- Glue – two part epoxy or E6000 – (do not use super glue)

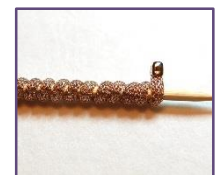

**Tools Needed:**

- 3.5mm or larger dowel or round form (I used a skewer)
- Flush Wire Cutters
- Round nosed pliers
- Nylon jawed pliers or coated flat nosed pliers

© Nora Farnsworth 2014

### Instructions:

1. Cut Pearlesque Capture Chain to the desired length. The clasp will add approximately one inch to the finished length. Glue the ends of the Pearlesque into the magnetic clasp. Let dry for two hours or overnight.
2. Make a 1/16<sup>th</sup> of an inch hook in one end of the craft wire. Ease the wire into the Hollow Knit – hook end first –until the hook comes out the other end. Pinch the wire hook closed over the Hollow Knit to keep it from sliding down the wire. With your fingers, roll the end to smooth any pieces that might be sticking out. Insert into the Terminator and crimp closed with the nylon jawed or coated flat nosed pliers. Finish the other end in the same manner.
3. Starting at one end of the dowel, begin wrapping the Hollow Knit around the dowel. Snug the coils close to each other as you wrap, but don't wrap too tightly.
4. Ease the coil off of the dowel. Shape the finished coil into a curve to match the curve of the necklace.
5. Wrap the Pearlesque Capture Chain around the coil. Center the coil on the necklace to your liking.

**Wear and Enjoy!**
