Approx. 12" Elastic Beading Cord #3747

### Tools Needed:

Scissors

© Nora Farnsworth 2014

## Instructions:

1. Leaving the elastic beading cord on the spool, string on one Teardrop Bead followed by two leaves. Continue stringing one Teardrop and two leaves until you have used 15 teardrop beads. Finish with two Czech leaves.

2. Cut the elastic strand from the spool at about 12 inches. This will give you plenty of material to form a square knot. Bring the two ends together and tie a square knot – twice. Secure the knot by stretching the elastic cord. Trim the ends and tuck the knot into a teardrop bead.

**Note:** To lengthen the bracelet simply add more leaves and teardrops. Always start with a teardrop and end with two leaves. To shorten the bracelet start eliminating leaves – instead of two, string one on, every other set of two. Each leaf will add or subtract about  $\frac{1}{4}$ ".

This Bracelet is great clustered together. Make multiple bracelets and wear them as bangles!

**Wear and Enjoy!**
